

Modified Pyramid Handicap System:

The “Modified Pyramid Handicap System” was introduced in attempt to provide a more equitable competition for all participants.

The system adjusts certain handicaps, for that round and all future rounds, as follows:

Any competitor scoring greater than 6 Net sub-par holes shall have his handicap reduced 1 stroke for each sub-par hole greater than 6.

Any competitor returning a Net score of less than 66 shall have his handicap reduced 1 stroke per stroke less than 66 **no score greater than a double bogey will be utilized for this calculation.*

All adjustment will be effective for the round incurred + all remaining tournament rounds
